

October 17, 2018

Sydney, NS

WORKSHOP DESCRIPTION:

This morning workshop is intended to provide the operators and engineers with an overview of pipe tapping techniques, equipment selection and Service Line Products used on various connection methods. The morning will also include a demo and installation guide for both direct drilling and tapping and saddle drilling. The afternoon workshop will offer hands-on stations that will test delegates on basic tapping techniques.

The workshop will cover the following basic areas:

Technical Overview

- Purpose
- Equipment Selection
- Review of brass fittings

Tapping Methods

- Equipment/fitting selection review
- Set-up and Safety
- Direct Tapping and Drilling techniques
- Saddle Drilling
- Main stop extraction and replacement

Hands On

- Direct Tap
- Saddle Tap
- Tapping on a pressurized line
- Equipment operation maintenance

COURSE FORMAT:

Every attempt is made to keep the course informal and an enjoyable day-long training experience. Registration starts at 8:30 am, and the instructor will start shortly after 8:30. Lunch is 11:30-12:30pm. Wrap-up time is usually around 4:00pm. Though all workshops are non-smoking, ample breaks are provided for coffee and discussion.

PRESENTER:

Presenter: Jeff B. Jensen, Mueller Canada

Jeff has been involved in the waterworks industry for 17 years. During this time he has enjoyed facilitating training courses abroad the Atlantic Canada engaging with Water Distribution stake holders on various water topics. Mueller Canada has been Jeff's primary employer during this time allowing his participation as a volunteer. Mueller works closely with sectional Operator associations in many areas of the North American continent to both help build products with the longest life cycle and better understand local issues. Mueller is the broadest manufacture of Waterworks products on the continent. Jeff's belief is working with system operators and managers is the best way

the share best practices in our industry. This will be the goal of our training day with the added value of seeing modern leading products and innovations by the Mueller Company.
