12:10 Converting old hydrant to new hydrants without excavation

12:25 Parts lists, color coding and maintenance records

12:30 Lunch

1:00 Clow Canada Plant Tour – 60 to 90 mins

The guided Tour will feature how all fire hydrant components are made, assembled and tested from start to finish. We also make Restrainers, Service Boxes, Uni-flanges and Post Indicators. These products, along with a massive inventory of resilient wedge Gate Valves, Butterfly Valves and In-Plant Valves will all be seen on the Tour. Our state of the art facility will be sure to impress. Health, Safety and the Environment are all top priority at the Plant and we have numerous awards to show for how serious we are. Therefore, our on-going protection, procedures and improvement techniques will also add value to the Tour.

PRESENTER:

Michael G. Duguay

In 2004, Duguay began his career in the Waterworks industry with McLennan Sales, a division of the Emco Corporation. He currently has held the title of Atlantic Sales Representative at Clow Canada for the past 9 years. During his career, Michael has done a countless number of fire hydrant training sessions, all across the Atlantic Provinces. He's currently a member of the following industry associations; AWWA, ACWWA, MPWWA and a former President of the ABEA. Duguay has a Bachelor's Degree in

Business Administration from the University of New Brunswick and has been trained on a wide range of Waterworks specific products over the past 14 years.
