**Online Course – Instructor Led  
Basic Water Treatment for Water Distribution Operators**

**August 12-13, 2020 (8:30 – 12:30 AST)**

**Course Objective / Description**

This program has been designed to provide water distribution and supply water operators with a basic yet valuable understanding of water treatment principals, techniques, and technologies. Given the inter-relationship between water treatment output and water distribution, this program is geared to provide distribution operators with an increased appreciation and understanding of the broader "water" protection perspective.

**What will be covered:**

- Typical water sources and common treatment considerations
- Basic treatment sciences
- Emerging issues
- Overview of water treatment processes and alternatives systems challenges
- Includes tour of water treatment facility
