**Online Course – Instructor Led**

## **Protecting Your Collection System through Sampling & Monitoring**

**May 12-13, 2021 (1:00 – 5:00 AST)**

### **Course Objective / Description**

This one-day specialty course has been custom designed for those responsible for carrying out sampling and monitoring activities in wastewater collection systems including operators, sewer use inspectors, and supervisors.

What will be covered:

- Introductions and objectives
- Definitions and purpose
- Effects of industrial discharges
- Typical sewer use bylaw
- Sampling (considerations; equipment; procedures; handling)
- Flow measurement and monitoring devices

| <b>Lesson</b> | <b>Description</b>              | <b>Contact Hours</b> |
|---------------|---------------------------------|----------------------|
| Lesson 1      | Introduction and Overview       | 0.25                 |
| Lesson 2      | Definitions and Purpose         | 0.5                  |
| Lesson 3      | Effects of Industrial Discharge | 0.75                 |
| Lesson 4      | Typical Sewer Use By-Law        | 0.5                  |
|               | Break                           | 0.25                 |
| Lesson 5      | Typical Sewer Use By-Law Cont'd | 0.5                  |
| Lesson 6      | Sampling Considerations         | 1.0                  |
| Lesson 6      | Sampling Equipment & Procedures | 1.0                  |
| Lesson 7      | Sample Handling                 | 0.5                  |
| Lesson 8      | Flow Measurement                | 0.5                  |
|               | Break                           | 0.25                 |
| Lesson 9      | Flow Measurement Cont'd         | 0.25                 |
| Lesson 10     | Monitoring Devices              | 0.75                 |
|               | Exam                            | 0.5                  |
|               | Total Instruction Time:         | 7.0                  |
