

Developer and Owner – WWOTC

Online Course – Instructor Led

Wastewater Problem Solving

May 19-20, 2021 (8:30 – 12:30 AST)

Course Objective / Description

This course has been developed with an objective to give wastewater operators the skills required for solving problems, and how to apply these skills to problems encountered at their facility. Basic problem-solving skills will be applied to case studies and your specific problems.

What will be covered:

- Knowing when you have a problem before losing control
- Proper analysis of the situation
- Biological Reactor Problems
- Settling and Clarifier Issues
- Skills and steps to problem solving and case studies

Lesson	Description	Contact Hours
