

Developer and Owner - BC Water and Waste Association (BCWWA)

Course Format

Online courses at the BCWWA are designed to be completed on your own time, and at your own pace. They are organized as a series of modules that include interactive sections, videos, readings and quizzes.

Additionally, the Wastewater Collection 2 online course includes access to a seasoned instructor, who is available for questions and clarification throughout your learning experience. In this way you get the best of both worlds - instructor support AND learning at your own pace and time.

Learning Objectives

After completing this course, you will be able to:

- Understand wastewater collection systems including pipeline construction, pumps and layout.
- Understand the maintenance and restoration of the wastewater collection system including cleaning, system inspection and testing.
- Understand engineering principles such as design periods, flow measurements and flow variations.
- Perform certain security, safety and administrative procedures involving electrical safety, sewer gases, odor control, etc.

Who Should Attend

You should take this course if you:

- Require an in-depth understanding of how wastewater collection systems work;
- Operate or maintain a facility classified as Wastewater Collection 2; or
- Are preparing to write the Environmental Operators Certificate Program (EOCP) certification exam for Wastewater Collection 2.

Certification and CEUs

This course provides **2.4 core CEUs** for the following Environmental Operators Certification Program (EOCP) certifications:

- small wastewater systems (SWWS)
- wastewater collection (WWC)

This course provides **2.4 related CEUs** for the following EOCP certifications:

- small water systems (SWS)
- wastewater treatment (WWT)
- water distribution (WD)
- water treatment (WT)

CEU 2.4

Section • American Water Works Association
MA • Water Environment Federation
